

MENTAL HEALTH & YOUNG PEOPLE IN THE SRE CONTEXT

This webinar is being offered to SRE teachers who teach in the High School setting. It will also be beneficial to those who teach Year 5 & 6 in Primary schools.

“Learn more about mental health and how it is affecting our kids and young people. With 25% of young people being diagnosed with a mental health condition, it is vital we educate ourselves around this topic. This workshop will teach you what signs and symptoms to be looking for, how to open a conversation with someone you are concerned about and the dos and don'ts around mental health.”

This seminar will also give you the pathway towards an accreditation course that our presenter also runs.

A certificate of attendance is provided.
