Member, AAOS

Member, Transforming Practices

Recognised Supervisor, Chaplaincy Australia

Why Supervision?

When people are listened to well, they feel understood, then openness of heart and mind helps them hear themselves at a deeper level.

Vision

My approach is to provide a safe space with deep listening to allow personal insights to be heard, explored and developed.

Method

There are many things that can restrict our lives, ministry or work practice. Supervision assists people to identify and name such restrictions in a context of safety and trust. Supervisees are then enabled to draw on their own strengths to discern the way forward with greater freedom and confidence.

Locations of Service

St George Area

Zoom, FaceTime and Telephone
