Welcome to Professional Pastoral Supervision with Diane

Supervision is *'the'* place where people can be their authentic self while discovering new transformational insights about their work situation and themselves. I value supervision for the safe space it creates for continuing reflective learning, growth, and the joy this brings. I am passionate about people flourishing in ministry and love to intentionally journey with them to support professional, sustainable and healthy ministry practice.

From experience, I understand the privilege of serving in ministry in a wide variety of contexts as well as the challenges that come with it. I have over 35 years of intercultural ministry, missions, and global leadership experience having lived in South America, Africa and Asia. My particular passion is working with those ministering in intercultural environments, women in leadership and younger leaders.

I hold membership in the Australasian Association of Supervision, a Graduate Certificate in Professional Supervision, and mentoring and coaching experience. I am also comfortable working in Spanish.

Qualifications:

Graduate Certificate in Professional Supervision (ACT/Morling College)
Certificate in Integrated Mission Leadership, Oxford Centre for Mission Studies
PhD (Education – workplace learning)
M.Med Sc (Health Social Science)

I am available in-person in Newcastle and the Hunter, or virtually by Zoom, Signal and Facetime.
