<p>Background information & Supervisory Framework</p>	<p>As a trained and experienced supervisor, I scaffold our sessions using the Clear Model of Supervision with active listening and open-ended questions. These, together with prayerful discernment, will trigger your capacity for deeper awareness of how you live out your values and beliefs in your ministry context. Together we will explore the points of challenge and incongruity where dissonance occurs, and growth can begin.</p> <p>I have had experience in overseas cross-cultural church planting ministry, teaching, preaching, training and leadership roles in education contexts and local church ministries and consultancy, plus community engagement through chaplaincy and small business. I am a wife, mother, grandmother, lifelong learner and enjoy experiencing love, life, and faith in community, in nature, music and the arts and in contemplative silence and solitude.</p>
