

Jennie Clarke

Without pastoral supervision I may not have lasted the distance in ministry. I am so passionate about the benefits of supervision that I obtained a Graduate Certificate in Pastoral Supervision so I can support others in a similar fashion.

I am an Accredited Baptist minister currently serving in a multicultural church in West Ryde. I have additional education and experience in Interim and Intentional Interim ministry and have been deployed as a Disaster Recovery Chaplain to more than twenty evacuation or recovery centres, supporting individuals in crisis. Aged care chaplaincy is also a special interest as I served in the sector (Uniting & HammondCare) for over eight years and understand some of the unique challenges involved.

My husband (also an Accredited Baptist minister) and I are blessed with a tribe of fabulous adult children and live on the Central Coast of New South Wales.
