

BRUCE THORNE

Bruce is a qualified Professional Supervisor (AAOS) with over 30 years in pastoral and leadership roles in a variety of contexts in regional and rural Australia. Currently accredited with Churches of Christ (Vic/Tas) Bruce has served as a local church leader in various denominations and in interim roles.

Bruce also has formal qualifications in Business Administration and Human Services. He has worked across local, State and Commonwealth governments establishing a platform of experience in governance, strategic planning, change management, and community development.

Bruce's particular interests include fostering church health and leadership integrity. His background includes a lived experience of burnout, debriefing and deescalating after critical incidents, and responding positively to conflict and criticism.

Healthy and resilient leadership is crucial in each of these arenas and Bruce sees supervision as a vital aspect of maintaining personal wellbeing and (professional & ministry) leadership effectiveness. Bruce offers online supervision without referral for those in pastoral ministry and other professions. Call or email to discuss the suitability of a supervisory relationship.
