

Jo Patterson Ministry Supervision Bio

I am a fully accredited pastoral supervisor (AAOS) as well as a chaplain/spiritual care working in Aged Care/palliative care.

I offer pastoral supervision with an aim to provide a safe and reflective place to explore issues in the ministry workplace. I've personally worked in ministry for 10 years, pastoral care for 14 years and in health care settings as a physiotherapist and later as a Chaplain. During this time, I've experienced various highs and lows which have helped me be aware of the unique issues that are inherent within ministry workplace settings.

I am keen to support others in their own ministry setting.
