

## Glenn Power – Supervision

I have been serving as a local pastor for 18 years, participating in senior leadership and having a passion for mission, the community and generally demonstrating God's love and goodness. I have extensive experience in managing Church Based Community Services and Pastoral Care. I also have extensive experience working in the health industry as a clinician and administrator.

My passion is to see lives transformed through the power of God's Spirit at work in and through people's lives. My goal in supervision is to provide support, learning and accountability that will help you to flourish in your role and broader life.
