## PROFESSIONAL SUPERVISION

Supervision with wisdom and care - building resilience, growth, and excellence.

## MY JOURNEY INTO SUPERVISION

I didn't begin in ministry - I started in emergency services, immigration detention, and the ADF. I've stood with people in their toughest moments, from soldiers on deployment to detainees in crisis.

Life has thrown me more than a few challenges, including learning to walk again after shattering every bone from the waist down. I know what it means to face obstacles head-on. My story isn't polished or picture-perfect-and that's the point. From leopard-crawling through mud at -5°C to finding joy in the most unexpected places, I've learned that life is messy, but God is still present.

As a supervisor, I offer real, down-to-earth support - no pretences, no fluff. If you want someone who listens, challenges, and walks alongside you regardless of faith, background, or belief, I'm here.

Supervision isn't just a tick in the box. It's a journey of growth, resilience, and transformation.

## GIVING BACK

At Chokmah Consulting, we support those who serve - whether in uniform or on four paws. A portion of our funds helps first responders, veterans, and rescue dogs. Choosing supervision with us means investing in both people and animals in need.

*About Me*
